## EXPERIENCE

- UPTOSKILLS, Delhi - Virtual internship [Certificate link](#)
- DATA ANALYST INTERN      Duration: [ Jan 2025 – Apr 2025] 3 Months

**Responsibilities & Achievements:** Here I Worked as a Data Analyst Intern at Uptoskills, collaborating in a team of 12 on multiple data-driven projects involving real-world dataset analysis, data cleaning, visualization, and reporting using Python, SQL, Excel, and Power BI/Tableau, while actively participating in sprint reviews and team meetings to ensure goal alignment.

## PROJECT

- ❖ ZEPTO – Monthly Sales Report Dashboard Analysis [Live dashboard](#)
  - ✓ Developed a comprehensive monthly sales report for Zepto, focused on analyzing sales trends, product performance, and customer buying behavior.
  - ✓ Initiated the process by **cleaning and structuring raw data in Excel**, ensuring accuracy and consistency for downstream analysis.
  - ✓ Applied **descriptive statistics** and trend analysis to uncover insights on peak sales periods, underperforming categories, and regional sales variance.
  - ✓ Completed the project in just **2–3 days**, combining speed with quality, and presented findings using a **storytelling approach** to guide business decisions.

## TECHNICAL SKILL

Languages: Python, SQL

Software/Tools: VS Code, Jupyter Notebook, GitHub, Microsoft Excel, MS Office

Cloud/Databases: AWS (S3 Bucket), MySQL

Areas of Interest: 1. Data Analyst 2.Business analyst 3.power Bi developer
